DETAILED ACTION

Information Disclosure Statement

1. The reference listed as C1 in the applicant's information disclosure statement (27 June 2003) still has not been submitted to the office for consideration, therefore the reference is not being considered.

Allowable Subject Matter

2. **Claims 4-20** are allowed.

The following is an examiner's statement of reasons for allowance:

With regard to claims 4, 7 and 18: The following is a statement of reasons for the indication of allowable subject matter: These claims are allowable over the prior art of record because the latter, either alone or in combination, does not disclose nor render obvious a AWG wherein an initial position of the first input port is chosen to be near the center of the AWG and an initial position of the remaining inputs are defined by images of the wavelengths dispersed by the central output port, a final position of the inputs defined by a variation of the defined initial positions of the input ports so that maximum of each one of the respective angular spreads is minimized and wherein the position of the output ports are positioned in the center of their respective final angular spreads of images of the wavelengths expected to converge for each port, in combination with the rest of the claimed limitations.

Art Unit: 2883

With regard to claims 5-6, 8-17 and 19-20: These claims are allowed because they depend from allowable claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following reference are pertinent to the state of the art at the time of applicant's invention: Ide (US 6,741,772 B2) and Nakamura et al (US 6,418,249 B1).
